

Bahareh Ahrabi

Profile

UX/UI Designer and AI Visual Content Creator with experience in digital brand presentation, product visuals, social media content, catalog design, and responsive web experiences.

Experienced with a wide range of AI creative tools, with a strong focus on Claude and Higgsfield for visual content ideation, image/video generation, and creative workflow development.

Education

University of Science and Research ----- 2020 - 2024
Bachelor's Degree in Engineering Physics

UX land Bootcamp ----- 2024 - 2025
Certificate in UX/UI Design

Work Experience

2025 - 2026 Velora Stonecraft Studio Project-Based Collaboration
UX/UI Designer | Digital Brand Designer | AI Content Creator

- Led Velora’s digital brand presence across visual identity, website design, product presentation, AI-generated visuals, social media content, catalog design, and overall visual direction.
- Designed and built the brand’s website using Wix Studio, including product pages, content hierarchy, and digital storytelling.
- Created AI-enhanced image and video content for stone products and sculptures, while designing catalog layouts and digital presentation materials for the brand.

2024 - 2025 | UX/UI Case Study Project (Team-Based)
UX/UI Designer

- Designed end-to-end user experience from research to final prototype.
- Conducted user research and defined user flows.
- Developed wireframes and interactive prototype in collaboration with a cross-functional team.
